

# JOINT STAFFING WIN

## Our Action Got Results

After months of pressure, Kaiser *finally* did the right thing and released the financial data needed to move forward with Joint Staffing.

**This didn't happen by chance—it happened because Coalition union members stood strong.** From the April sticker-up to frontline organizing, you made this happen.

**Let's be clear: This should have happened sooner.** But this win is proof that collective action gets results, and Kaiser can act right when they choose to.

Now, **we need every union member engaged** in Joint Staffing and ready to use our Coalition power to hold Kaiser accountable when needed.

### WHAT'S NEXT:

- Review the data.
- Make sure you are released for your UBT's Joint Staffing meetings.
- Speak up—your voice matters.
- **Reminder:** Plans are due August 31—but they're not final without full UBT consensus.
